FACTORY VI

FIRST LOOK – PREVIEW EDITION

*"WHERE RAW MATERIALS
MEET
TIMELESS DESIGN"*

Factory VI

The Factory VI Collection tells the story of industrial spaces and their materials. Concrete, brick, sandstone, plaster, and marble – each surface carries the marks of time, labor, and transformation. What was once purely functional has become an expression of style and authenticity. Inspired by old factories and urban lofts, this collection unites contrasts: rough and elegant, raw and refined, past and modern. Every wall becomes a stage for character, history, and design.

KEY DATA

- Taste collection
- 38 wallcoverings
- Validity 2028

CONCRETE

Concrete translates the urban clarity of concrete into a timeless wall design. With its understated texture, it creates a purist base that gives rooms a modern and authentic look. A versatile plain fabric that looks great on its own and also provides the perfect backdrop for expressive combinations.

TERRA

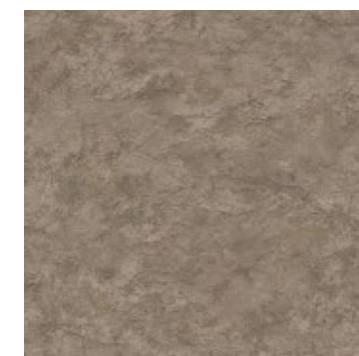

Terra brings the earth's originality to the wall. The lively texture with fine cracks and natural shades is reminiscent of stone, sand and weathered surfaces. A design full of warmth and authenticity that gives rooms depth and naturalness.

BRICK

Brick captures the distinctive charm of old brick walls. Irregular structures and natural colour nuances give the design an authentic, urban look. A classic that instantly gives any room a loft-like character and cosy warmth.

MARMOREA

Marmorea thrives on dynamic structures and elegant gold accents that flow like fine veins across the surface. They lend the design shine, depth and a luxurious aura. Depending on the colour variant, each one creates its own mood – from elegant and subtle to expressive and modern.

ECHO

Echo reflects the authentic beauty of paste paint on rough canvas. With its lively textures and subtle shades in warm natural and gold tones, it creates a surface full of depth and character. An expressive pattern that combines naturalness and elegance.

PALAZZO

Palazzo brings the grace of classic stone architecture into the room. Soft grains and vertical structures are reminiscent of fine travertine and lend timeless elegance to any environment. A design that radiates lightness, grandeur and sophistication.

TONEA

Tonea – Clean lines, precise shapes and the warm feel of wood combine to create a graphic interplay of texture and depth. The geometric arrangement creates a calm, modern atmosphere – minimalist, natural and powerful in its expression.
