HARMONY

Treffen organische Formen und sinnliche Grüntöne aus der Natur aufeinander, wehen sie als sanfte Brise zusammen durch den Raum und verbreiten pure Harmonie.

The organic shapes and sensual shades of green from nature breeze through the room, spreading pure harmony.

Lorsque des formes organiques et des tons verts sensuels issus de la nature se rencontrent, ils font souffler ensemble comme une douce brise dans la pièce et répandent une pure harmonie.

The background is an abstract composition of layered, torn paper in warm tones of orange, peach, and cream. There are some darker, textured areas in the top left and bottom right, possibly representing water or foliage. The overall effect is organic and artistic.

H A N G L O O S E

Das Freiheitsgefühl der unendlichen Weite, welches bei dem Blick auf den offenen Ozean entsteht, bleibt unvergessen. Eine Wanddekoration mit türkisblauen Buchten unter Palmen, erzeugt Leichtigkeit und Freude.

The sense of freedom one feels when taking in the infinite expanse of the open ocean is a truly unforgettable experience. This wall décor featuring turquoise sandy coves beneath palm trees and soft, organic shapes is guaranteed to bring lightness and joy.

Le sentiment de liberté et d'immensité qui naît de la vue sur l'océan ouvert est inoubliable. Une décoration murale, avec des baies turquoise sous les palmiers et des formes douces et organiques, procure joie et légèreté.

SELBSTKLEBENDE TAPETEN AUF VLIES
SELF-ADHESIVE MURALS ON NON WOVEN
POSTERS XXL ADHÉSIF INTISSÉ

Kurzanleitung – KOMAR DOT

KOMAR DOT ist eine selbstklebende Tapete, welche mühelos und ohne Schmutz, mit einer starken, langlebigen und wieder entfernbaren Verklebung, an die Wand angebracht werden kann. Um die besten Ergebnisse mit Ihrem KOMAR DOT zu erzielen, achten Sie darauf, dass der Untergrund vor dem Aufbringen sauber, glatt und trocken ist.

Entfernen Sie ca. ¼ des Trägerpapiers, indem Sie das Trägerpapier nach hinten umklappen, um die Klebefläche freizulegen und bringen Sie den Sticker in die richtige Position. Richten Sie den KOMAR DOT eventuell neu aus – der KOMAR DOT ist replatzierbar. Ziehen Sie den Rest des Trägermaterials gleichmäßig ab und üben Sie von der Mitte nach außen Druck aus, bis das komplette Motiv auf die Wand aufgebracht ist. Entfernen Sie eingeschlossene Lufttaschen durch Ausstreichen.

Testen Sie vor der Verwendung immer erst die Kompatibilität. Bringen Sie dafür ein kleines Reststück an einer unauffälligen Stelle an und lassen Sie dieses 2-3 Tage haften.

Quick reference guide – KOMAR DOT

KOMAR DOT is a self-adhesive wall decoration, which can be easily applied using a strong and durable bonding agent directly to the wall and can easily be removed without leaving a stain. In order to achieve the best possible results with your KOMAR DOT, please ensure that the surface is clean, smooth and dry before the application.

Remove approximately ¼ of the foil backing from the top of the design by folding back the foil towards the rear, revealing the adhesive agent. Once top ¼ the adhesive side is exposed, apply the sticker to the surface in the correct position. If necessary, realign the KOMAR DOT – the KOMAR DOT can be repositioned. Gently remove the rest of the foil backing and apply pressure from the center towards the outside edges – until the complete design is well bonded to the wall. Remove air pockets by carefully pressing them towards the outside.

Before usage, always test the wall compatibility first. By attaching a small leftover piece in an insignificant spot and let it adhere for 2-3 days.

Guide rapide – KOMAR DOT

KOMAR DOT est un papier peint adhésif qui peut s'appliquer facilement au mur sans laisser de traces, à l'aide d'un adhésif puissant, durable et amovible. Pour obtenir d'excellents résultats avec votre KOMAR DOT, assurez-vous que la surface est propre, lisse et sèche avant la pose.

Retirez environ ¼ du liner (papier support) en le pliant vers l'arrière afin d'exposer la surface adhésive et d'amener l'échantillon dans la bonne position. Si nécessaire, réalignez le KOMAR DOT – le KOMAR DOT est repositionnable. Enlevez le reste du papier support de façon uniforme et exercez une pression du centre vers l'extérieur jusqu'à ce que l'ensemble du motif soit appliqué sur le mur. Supprimez les bulles d'air éventuelles en les marouflant.

Avant l'utilisation, testez toujours la compatibilité du support. Pour ce faire, posez un petit échantillon à un endroit discret et laissez-le coller pendant 2 à 3 jours.

Gebrauchsanleitung

Um ein Durchscheinen des Untergrundes zu vermeiden, muss dieser eine homogene Färbung aufweisen, sauber und glatt sein.

1. Legen Sie die Tapete vor dem Verkleben aus und kontrollieren Sie diese, da wir für Klebekosten nicht haften können.

2. Um die Position der ersten Bahn zu markieren, zeichnen Sie mittels Wasserwaage und Lot Hilfslinien mit Bleistift an die Wand.

3/4. Die Tapete kann in Wandklebetechnik angebracht werden; hierzu den Kleister mit einer Rolle oder einer Bürste bahnenweise auf die Wand gleichmäßig auftragen. Mit einem sauberen Tuch, weichen Roller oder Bürste die Tapete andrücken; von oben nach unten und von innen nach außen arbeiten. Das Trocknen muss langsam erfolgen, um ein Klaffen an den Verbindungslinien und ein Rissigwerden der Tapete zu vermeiden.

5. Die Bahnen der Vliestapeten werden Stoss an Stoss verklebt. Verwenden Sie dafür handelsüblichen Kleister für Vliestapeten.

Arbeiten Sie daher bei einer Zimmertemperatur von ca. 18-20°C, vermeiden Sie Luftzug (Fenster geschlossen halten, im Winter mäßig heizen).

6. Abschließend Überstände mit einem Cutter vorsichtig abschneiden. Kleisterreste auf der Tapete sofort mit einem feuchten Schwamm oder Tuch abtupfen.

Instructions for use

All surfaces should be smooth, dry, stainless and free from dust and grease.

1. Lay out the wallpaper before hanging and check for any defects as we do not offer compensation once mural has been applied.

2. To mark the position of the first panel, draw vertical lines on the wall, using a pencil, a level and a plumbline.

3. Apply the glue evenly and directly to the wall surface. Use commercial glue for non-woven wallcoverings.

4/5. Hang the wallcovering without overlap or soaking time. Press each panel with a soft brush or roller, or a dry cloth onto the wall. Work from top to bottom and from centre to the edges. The drying period must be quite long, as drying too quickly will cause separation of the edges and cracking of the mural could occur. The work should therefore be done at a room temperature of approx. 20°C. In winter the room must be moderately heated. Keep the windows closed to avoid any draft.

6. Finally trim any excess carefully. Remove excess paste from the wallpaper with a moist foam immediately.

Mode d'emploi

Le support doit être propre, sain, lisse et monochrome pour éviter de voir des nuances par transparence.

1. Vérifier le panoramique avant tout travail, la pose vaut l'acceptation du produit.

2. Pour positionner le 1er lé, tracer au crayon une ligne horizontale et verticale à l'aide d'un niveau et d'un fil à plomb.

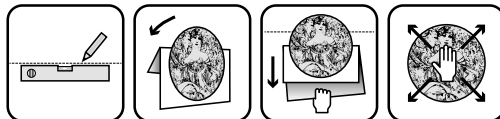

3. Poser les lés suivants bord à bord. Utiliser une colle spécialement pour intissés.

4/5. Le panoramique doit être posé avec la colle au mur. Pour cela étaler la colle sur le mur - de la largeur d'un lé - à l'aide d'un rouleau ou d'une brosse. Maroufler avec un chiffon propre et doux, une brosse ou un rouleau; partir du haut vers le bas et de l'intérieur vers l'extérieur.

Le séchage doit être relativement long, car un séchage trop rapide pourrait provoquer un écartement aux joints et la matière du panoramique risquerait de devenir cassant. Il faut donc avoir une température ambiante d'environ 20°. En hiver, il faudra chauffer modérément. Surtout laisser les fenêtres fermées afin d'éviter les courants d'air.

6. Pour terminer, couper proprement les surplus avec un cutter. Eliminer de suite en tamponnant les excédents de colle à l'aide d'un chiffon ou d'une éponge légèrement humide et propre.
